Our customers tell us that our novelties are the best that have ever been sold in Honolulu. As a rule kitchen novelties and labor saving tools don't amount to much, ours do.

The quick-cut mincing knife is one that cuts around the corners; being made half round, it is the best for chopping in a bowl. Fifteen cents is the price.

Every housekeeper knows that small bits of soap accumulate in the kitchen until they are thrown away. The kitchen soap shaker, made of wire, enables you to economize in respect to soap.

Half the fun of camping is in being able to flip a flap jack in the pan, but half the hunters and half the cooks don't save how. We have a cake turner that does flipping automatically. It costs 15 cents for a dollar's worth of satisfaction. It's made on the no-wear-out principle.

The Premier egg cup is a novelty that should be in use in every home. It saves scorching the fingers in opening the egg; it saves disappointment in the way of matured eggs being sent to the table, for by its use the age of the egg is ascertained before it leaves the kitchen; it guarantees satisfaction in every way.

We've more novelties than we can write about in one ad. Sink brooms at 15 cents is one of them and World's Fair toothpicks another. All good for the house. For staples we have:

Handsome candelabra lamps in brass. Royal banquet lamps, wrought iron \$6.10 each. Crystal font street lamps. Brass railroad lamps—excellent for steamer pursers. Wire epergnes for the table. All cheap.

Yesterday morning Solomon Mahiki, an employee of E. O. Hall & Son, was arrested by Captain Parker on the charge of larceny.

Shortly after the store, in which he was employed, had been opened, a Chinese shoemaker stepped in and bought \$21 worth of leather from Mahiki, who only turned in \$10.

One of the clerks in the store found out that the proper amount of money had not been turned in, and an investigation was made. The Chinaman was found and it was learned that he had paid \$21. Mahiki was immediately arrested.

Child Study.

On Wednesday, February 17th, at 2:30 p. m., the first meeting of the class in child-study and psychology under Mr. Dumas and Mr. Woodward will be held at the High School building. The meeting will consist of brief talks, followed by questions and voluntary discussion, after which the class will be organized.

Following are the topics: "The Results Already Attained in Child-Study." Talks by Mrs. H. N. Castle and Mrs. T. Richards. "The Value of Psychology to the Teacher." Talks by Miss Harding and Miss Murray.

Bicycle vs. Horse.

For about three months past Billy Norton has been talking to John Silva, the Portuguese bicycle rider, about riding a five-mile race against a certain fast black pacer of his. Silva has kept very quiet, and said nothing more than that he hoped to meet him and his horse on the track some day. He has waited in vain for the formal challenge that has never come, and so today he will send a challenge to Norton, which the latter cannot help but accept after having proposed and talked so much about racing.

To Defy the Moon.

The Government Band will give a concert at Makee Island tomorrow evening. Electric lights will be put in the band stand by the Hawaiian Electric Company today, and the place will be brilliantly illuminated on the occasion of the concert. This concert will mark a new era in such events at Kapiolani Park, it being possible in future to light the island at night as brightly as Emma Square. The program for tomorrow evening's concert will be published in tomorrow's Advertiser.

Anatomically Correct!

To say that a shoe is anatomically correct seems like a great deal, but we have the shoe and can prove our assertion.

Our new CORNELL last for men, in Russia and Calf is the shoe, and the medical fraternity are recommending it.
